## INVESTMENT OBJECTIVE, STRATEGY AND POLICY

<b>Investment Objective</b>	<p>The objective of the Sub-Fund is to seek to achieve long term investment growth, in total return terms, through active investment in global equities.</p> <p><b>There can be no assurance that the Sub-Fund will achieve its investment objective.</b></p>
<b>Investment Strategy</b>	<p>It is intended to achieve the Sub-Fund’s investment objective through the Investment Manager’s investment process which encompasses active security selection across a diversified portfolio of global equities and other investments as outlined in the “Investment Policy” section below.</p>
<b>Investment Policy</b>	<p>The Sub-Fund will invest in freely transferable equity and equity-related instruments as set out below, of issuers listed or traded on a Regulated Market worldwide.</p> <p>The Investment Manager may, in its sole discretion, actively allocate between equity and equity-related instruments. In determining such allocations, the Investment Manager will consider various factors, such as: (i) the prevailing market conditions; (ii) macro-economic factors as determined by the Investment Manager to be relevant (such as changes in unemployment, monetary policy shifts, fiscal policy shifts, gross domestic product growth or inflation); and (iii) the current risk appetite of the Sub-Fund.</p> <p>The Sub-Fund will invest in common stocks and other securities with equity characteristics, such as preferred stocks, warrants, rights (which are issued by a company to allow holders to subscribe for additional securities issued by that company), participation notes and global depository receipts and American depository receipts, all of which are traded on Regulated Markets.</p> <p>At all times, at least 80% of the Sub-Fund’s Net Asset Value will be invested in equities through the foregoing instruments. Up to 20% of the Sub-Fund’s Net Asset Value may also be invested in cash, money market instruments (such as certificates of deposit and treasury bills) and government bonds (which may be fixed or floating and will have a minimum rating of AAA from a nationally recognised statistical rating organisation). The Sub-Fund will hold long positions only and will not hold any short positions. The Sub-Fund will be diversified and therefore will not concentrate on any specific industrial sectors, but will rather pursue a policy of active security selection in the markets in which it operates. There are no prescribed limits on geographic asset distribution.</p> <p>Alongside equities incorporated or listed in developed markets globally, the Sub-Fund may include equities incorporated or listed in emerging markets.</p> <p>Although it is anticipated that the Sub-Fund will not primarily target investments that are listed or traded in Russia (such as the Moscow Exchange), to the extent that the Sub-Fund does so invest, such investments shall not in any event exceed 30% of the Net Asset Value of the Sub-Fund.</p>
<b>Benchmark</b>	<p>The MSCI All Country World Index is the benchmark index against which the Sub-Fund’s performance is compared. Details of the Sub-Fund’s</p>

	<p>performance relative to this benchmark index are available in the Sub-Fund's KIID and in certain marketing material. References to the benchmark index are for illustrative purposes only. There is no guarantee that the Sub-Fund's performance will match or exceed the benchmark index.</p> <p>The Sub-Fund is actively managed and, while a significant proportion of the Sub-Fund may be components of, and have similar weightings to, the benchmark index, the Investment Manager may use its discretion to invest a significant proportion of the Sub-Fund in assets which are not included in the benchmark index or the Investment Manager may invest a significant proportion of the Sub-Fund with weightings different to that of the benchmark index. For the avoidance of doubt, the Investment Manager considers that the benchmark index is not used for the purpose of constraining the composition of the Sub-Fund's portfolio.</p>
<b>Investment in Collective Investment Schemes</b>	<p>The Sub-Fund may invest no more than 10% of its Net Asset Value in units or shares of Eligible Collective Investment Schemes, such as money market funds, for the purposes of maintaining liquidity or gaining indirect exposure to the assets referred to above in the section of this Supplement entitled "Investment Policy". The Sub-Fund does not currently intend to invest in Eligible Collective Investment Schemes.</p>
<b>Derivatives and Leverage</b>	<p>The Sub-Fund may only use spot and forward currency contracts (as well as warrants and rights, as referred to above) for efficient portfolio management purposes. It is not intended to significantly increase the volatility of the Sub-Fund through the use of such FDI. A Sub-Fund's global exposure measured using the commitment approach will not exceed the Sub-Fund's Net Asset Value.</p> <p>Investment techniques and FDI may be used for efficient portfolio management purposes within the limits set forth in Schedule II as described in the section entitled "Types and Descriptions of FDI".</p> <p>The Sub-Fund may be leveraged up to 10% of its Net Asset Value as a result of its use of FDI. The Sub-Fund uses the commitment approach to measure its global exposure.</p>
<b>Cash Management</b>	<p>Normally, the Sub-Fund will invest substantially all of its assets to meet its investment objective. To the extent that the Sub-Fund's assets are not fully invested in accordance with the objectives set out above, the Sub-Fund may invest the remainder of its assets in debt securities with maturities of less than one year, money market instruments and cash equivalents (such as government securities, discount notes, certificates of deposit, bankers acceptances, commercial paper and treasury bills of investment grade and non-investment grade and which are listed or traded on Regulated Markets worldwide) or may hold cash. The percentage of the Sub-Fund invested in such holdings will vary and depend on several factors, including market conditions. For temporary defensive purposes, including during periods of high cash inflows, the Sub-Fund may depart from its principal investment strategies and invest part or all of its assets in these securities or may hold cash. During such periods, the Sub-Fund may not achieve its investment objective.</p>
<b>Profile of a Typical</b>	<p>Investment in the Sub-Fund may be appropriate for investors who have a</p>

<b>Investor in the Sub-Fund</b>	medium- to long-term investment horizon. The Sub-Fund is not designed for investors who are unwilling to accept volatility, including the possibility of sharp share price fluctuations (including declines); or are seeking to invest to meet short-term goals.
<b>Risk Factors</b>	Investors' attention is drawn to the risk factors set out in the section of the Prospectus entitled "Special Considerations and Risk Factors".
<b>Base Currency</b>	USD
